

Grouting for Success CEU Course

Course Title:	Grouting for Success
Course Number:	MAP006
Description:	An explanation of the differences in grouts, and how industry standards apply to them. Participants will also be taught the difference between Portland cements, HCT technology and epoxies, and why they are needed for various types of ceramic tile and stone installations.
Learning Units:	1
Delivery Provider Name:	ProSpec, LLC [®]
Credit Designation:	LU
Course Format:	Instructor-Led-Face-To-Face
Contact Us:	info@prospecllc.com
Learning Objective 1:	Understand the history of grout, why it is used and what is grout supposed to do?
Learning Objective 2:	How can specifying jobsite mixed, factory blended, and or high performance cement grouts make a difference in your owners expectations?
Learning Objective 3:	When is an “industrial” epoxy grout needed in your projects specifications ?
Learning Objective 4:	Understand how a better understanding of the many different types of grouts can assist you in specifying proper performance on your next tile project?
