

## WATERPROOFING: KEY TO AVOIDING COSTLY FAILURES

<b>Course Title:</b>	Waterproofing: Key to Avoiding Costly Failures
<b>Course Number:</b>	MAP024C
<b>Description:</b>	A discussion about the various types, methods and situations where waterproofing will protect and enhance tile and flooring installations. Also, a look at the various failures that can occur when waterproofing or moisture control is neglected or incorrectly installed in residential and commercial tile projects, including interior/exterior floors and walls, swimming pools, balconies, plaza decks, facades and baths. •Understand why many failures occur. •Learn how waterproofing and moisture mitigation requirements vary. •Discover solutions for common applications.
<b>Learning Units:</b>	1 LU/ HSW
<b>Delivery Provider Name:</b>	MAPEI Corp.
<b>Credit Designation:</b>	LU & HSW
<b>Course Format:</b>	Instructor-Led-Face-To-Face
